

Replacement of Missing Teeth

Speaker: Mr. AJ Ray–Chaudhuri

21st January 2019

9.30am to 4.30pm

Chichester Medical Education Centre

Course ID: 8190

Cost: £60.00

Dentists only

Course Aims: To improve dentists' ability to treatment plan and provide replacement of missing teeth.

Course Objectives:

- ⇒ To improve dentists' knowledge of the structure of a Prosthodontic treatment plan.
- ⇒ To improve dentists' ability to plan and deliver removable and fixed Prosthodontic care with a focus on partial dentures, adhesive bridges and implants.
- ⇒ To improve dentists' ability to communicate this effectively with patients, colleagues and the dental laboratory.

Learning Outcomes:

- ⇒ Effective communication with patients, the dental team and others across dentistry, including when obtaining consent, dealing with complaints, and raising concerns when patients are at risk.
- ⇒ Maintenance and development of knowledge and skill within your field of Practice.
