

West Sussex Practitioner Advice & Support Scheme (PASS)

You may or may not be aware that there is now an LDC based Practitioner Advice and Support Scheme for West Sussex (PASS). This is an informal scheme in line with the GDC's wishes for local arrangements to be in place to deal with "whistleblowing" or raising concerns.

Any dental team member who feels concern about the attitude, behaviour, or clinical performance of a colleague (or even themselves) such that patient care may be compromised can approach the PASS and discuss their concerns. They can have an informal discussion with our first point of contact (see below) in the knowledge that their comments, provided they are not malicious, will be handled with complete confidentiality.

Your PASS contact is **Peter Maund** and he can be contacted on: p.maud_dental@yahoo.co.uk or 01903 246858 (practice number).
